#### DX NEWS OF INTEREST

As most of you already know, the North American Pirate Relay Service (NAPRS) shut down its transmitters & ceased operations at the end of October. Station owner/operator Richard T. Pistek says changing interests & competition from the likes of WARR & WPRS were the reasons for pulling the plug on the station. NAPRS has relayed numerous North American pirates as well as European free radio stations over the past four years. The support & dedication that Mr. Pistek has given to the hobby during NAPRS' existence will surely be missed. Thank you very much for the fun programming Richard!

Deadline for December Dialogs: November 20th

## CLANDESTINE PROFILE

George Zeller; 3492 West 123rd St.; Cleveland, OH 44111

Your loggings, information, and speculations about clandestine radio stations are always very welcome for this column. You can send them direct to your editor at 3492 West 123rd Street, Cleveland, Ohio 44111. Or, you can call (216) 941-3366 anytime, or else (216) 696-9077 between 1200-2045 UTC weekdays. You can use [George.Zeller@acclink.com](mailto:George.Zeller@acclink.com) for internet e-mail.

#### APOLOGIES FOR UNUSUALLY SHORT COLUMN

It has been many years since I've had a severe schedule conflict that interfered with the writing of this Clandestine Profile column. But, I had a very unusual situation this month. During the time when I would normally be writing the column, I was in attendance at the Grove Communications Expo in Atlanta. Immediately after that conference, I flew from Atlanta to Washington for a business meeting. Plus, my tenth annual *Ohio Poverty Indicators* report was released at work on October 28, causing a frantic situation of activity. Finally, the sound card quit working on my computer. I took advantage of the fact that I was out of town anyway, and I took it into the shop for repairs. Thus, when I came back from Washington, I had no computer to write this column.

So, my apologies go out to the ACE membership. I just couldn't write a full sized column this month. I don't expect to have all of these difficulties in December, so I trust that we will be back to normal then. If you sent in material and don't see it here, look for it next month.

#### RADIO KUDIRAT NIGERIA CHANGES SCHEDULE AGAIN

The frequency coordinator for Nigerian clandestine Radio Kudirat has struck again. The station has changed the time of its one hour daily broadcast to 1900 UTC. On the Sentech Meyerton web site at <http://www.sentech.co.za/meyerton.html> the official numbers are now listed as 1905-2005 UTC. The frequency in use, 6205 kHz, is unchanged. DXer Tony Benbenek of New York said that he heard them announce the time shift during a September 30 broadcast.

I checked out the new time on October 12, and sure enough, they were on as announced. I noted a sign-off three minutes early at 2002 UTC, but the carrier stayed on for another seven minutes of dead air until the transmitter was switched off. This Saturday show was *not* in English; I presume that Hausa was the local language on that day. But, Tony heard them in English, which I believe is still their normal format. ACE member Vince Havrilko of Florida sent in several September loggings of the station, all at their former 2100 UTC time frame. Vince once heard them break into Arabic musical programming, however.

Veteran DXer Tom Sundstrom sends in some additional information on the station. Tom confirms that October 1 was the date when the new 1905-2005 UTC time schedule took effect. Tom lists two pages on the internet where you can find some additional information on the station, including <http://www.sccs.swarthmore.edu/org/nigeria/> and <http://www.sccs.swarthmore.edu/org/nigeria/radio.html> URL's. Tom also reports that he has a true speech audio clip from this station on his own web pages. If you'd like to listen, try <http://www.trsc.com/sounds.htm> to reach it.

In a slightly related matter, Fred Pierce of California sent in an e-mail message that he found from the IFEX Clearing House, reachable at [ifex@web.net](mailto:ifex@web.net). The message from Maarit Nermes of the Media for Development in Democracy said that on July 31 Nigerian authorities arrested Okina Deesor, a producer at Radio Rivers. A statement from Nigerian Major Obi Umabi, who ordered the arrest, said that Deesor had been arrested because on July 18 the station had played the Ogoni national anthem on the air.

Apparently the Ogoniland state in southern Nigeria has been the site of political activism. Environmentalists have been trying to clean up the local oil production industry. IFEX said that Ogoni activist Ken Saro-Wiwa and eight other activists were hanged by the Nigerian government.

### LATEST RADIO PATRIA LIBRE INFORMATION

DX expert Henrik Klemetz of Colombia has been following the movements of ELN clandestine Radio Patria Libre since their recent reactivation. In several editions of *Dateline Bogota*, Henrik reports that he hears them on a possibly variable frequency of 6250 kHz. The most recent information, courtesy *Dateline Bogota* via *Numero Uno* #1393, Henrik says that the shows have been running for about 30 minutes from sign-on times at 1800 and 2200 UTC. It could be possible for us to hear the 2200 transmission, now that winter propagation conditions have returned. Has anybody spotted this one yet from North America?

Henrik also notes that a second Colombian clandestine has been heard on 6259 kHz at 2300 UTC. This one, with an ID of La Voz de la Resistencia, is supposedly operated by the FARC rebel group, not the ELN. Given the close proximity to Patria Libre's frequency, it would be a good idea to listen closely for clear IDs if you are lucky enough to hear these new operations. It is still possible that Colombian government jammers or black clandestines might be present, such as the El Pueblo Responde operation that we saw during Patria Libre's last period of regular activity a couple of years ago.

### ANDREW YODER CHECKS IN

Andrew Yoder, who is of course well known for his pirate DXing, for *The Pirate Radio Directory*, for his many other pirate books, and for the *Pirate Pages* newsletter, checks in this month with some clandestine information! While Andrew was tuning around 31 meters, he bagged a log of the Voice of the Iraqi People on 9568.3 kHz. Good catch, Andrew! He says that their very strong signal featured traditional and classical music in what sounded like Arabic.

Andrew's log came with strings attached, since he wonders what the address is to report to this one. As we pointed out on page 21 of the October ACE, it is very widely known that the station uses transmitters in Saudi Arabia that are funded through the CIA. In the new 1997 edition of *Passport to World Band Radio*, Larry Magne lists it in the "black" clandestine category. Even more interesting, *Passport* gives an address of Post Office Box 61718, Riyadh 11575, Saudi Arabia. It even lists Suliman A. Al-Samman by name, who as the Director of Frequency Management of the Broadcasting Service of the Kingdom of Saudi Arabia could be a contact point. If you want to try this route for a QSL, it would be a good idea to remember that the station's clandestine status could make a reply somewhat sensitive. So, diplomacy while composing a reception report could be vital.

### 1997 Passport CLANDESTINE LIST

While we are on the subject of *Passport to World Band Radio*, this is a good time to plug the excellent clandestine address and information summary that is in this book. The 1997 update follows the format institutionalized by *Passport* in the past. A very long list of currently active clandestines and quasi-clandestines is listed under a "Disestablishmentarian" category within *Passport's* regular QSL address and station information section. The clandestine part this year is found on pages 321-330. If you're looking for a place to send a report to a clandestine, this should be the first place that you check. *Passport* runs rings around the *World Radio and Television Handbook* in this regard, since the WRTH still refuses to mention clandestine stations in its listings for the most part.

### CRACKDOWN IN LEBANON

ACE member and Cumbre DX organizer Ullis Fleming of Maryland sends in some interesting Associated Press material on a recent crackdown of the government of Lebanon on unlicensed broadcasting. The AP reported that the Lebanese government closed down dozens of unlicensed TV and radio broadcasters on September 17. The move followed a governmental commission report that recommended that only 4 TV and 3 radio broadcasters be sanctioned within Lebanon. Critics said that the "liveliest and most independent media

in the Arab world" was threatened by this development. The AP reported that 150 private radio and 50 private TV stations were impacted. Lebanese Information Minister Farid Mekary said that only one exception to the policy was being made: all Hezbollah stations located in southern Lebanon could continue broadcasting until Israel ends its occupation of the region. According to BBCMS via *Monitoring Times*, Mekary also has noted that two Radio Lebanon services will be set up with a religious slant. One will broadcast Islamic events and religious programs, while the second will focus on Christian events and religious programs. The BBCMS account of this reform at Radio Lebanon did not refer to the crackdown on private broadcasting in the country.

### COMEAU LOGS TIGRAY

DXer Ross Comeau of Massachusetts sends in a log of the Voice of the Tigray. He heard them from 0031-0401+ using 5500 kHz on September 14. His SIO of 443 over this lengthy period of time suggests that the rest of us might want to check this one out. He noted male and female announcers with news, announcements, and many mentions of both Africa and "sallamm." He heard several "Horn of Africa" folk music selections with flutes. Ross notes that this music almost sounds oriental. He also checked the area around 7515 kHz for this one, but found nothing.

### ADDITIONAL BBCMS ITEMS OF INTEREST

We have some items from BBC Monitoring via *MT* that did not fit in the *MT* Outer Limits column, but that will be of interest to clandestine DXers like us. Here's a short summary:

**Burundi-** Another clandestine Radio Democracy has appeared, this time from Burundi. BBCMS says that this pro-Hutu anti-Burundi government station is using 7040 kHz around 0500 UTC. Programming supports Leonard Nyangoma, who is the leader of CNDD, the National Council for the Defense of Democracy. We should have a shot at this one, with good African reception conditions returning during the fall and winter.

**Sudan-** BBCMS says that the Voice of Sudan, Voice of the National Democratic Alliance is using 12008, 9025.3, and 8000.1 kHz in Arabic during a two hour transmission at 1600 UTC. The high frequency might make it to North America on a good day.

**Uruguay-** BBCMS, citing a report from the Argentine news agency Noticias Argentinas, says that Uruguay Defense Minister Raul Iturría announced a September 21 bust of "a clandestine radio station that was issuing instructions for manufacturing home-made bombs and using weapons." Iturría said that Uruguay Defense ministry personnel and the local police conducted the bust in a densely populated neighborhood of northwest Montevideo. The station ID'ed as "La Intrusa," which translates as The Intruder. Iturría said that a 17 year old man was arrested during the bust. The station used local FM frequencies, and "invited the people to take to the streets and engage in a popular struggle."

### THANKS!

This month we thank several DXers who submitted material direct to this column despite the unusually short deadline, including Tony Benbenek (New York), Vince Havrilko (Florida), Andrew Yoder (Pennsylvania), Tom Sundstrom (New Jersey), Ross Comeau (Massachusetts), Ullis Fleming (Maryland), and George Zeller (Ohio). Next month I expect to be back on a more normal schedule, so we all hope to hear from YOU by November 20 for the December ACE Clandestine Profile.

Yolanda

## Veried Response

*your center for QSL information and comment*

John T. Arthur, proprietor

RD#1 Box 15A Belfast, NY 14711

(716) 365-8870 (m.o.l.) not collect Email: cc732@freenet.buffalo.edu

with help from the VR Troopers and other good Friends. VR is electronically transmitted to A\*C\*E HDQ on or before the 23rd of each month; please send your input and comments to the above address to arrive prior to the 15th. Your active participation in the form of input, reports, suggestions, and/or constructive criticism is solicited and welcomed.

Unless otherwise attributed, opinions in VR are those of this mildly disturbed individual and should not be misinterpreted to represent The A\*C\*E as an organization, or any other sane person for that matter. Got a beef? Comments and complaints should be directed to this columnist in triplicate for round-filing - and NOT to any other address.

### What's News the media report

They've done it again! Nuts & Volts, that is; they sent another complimentary copy for a plug in VR. And here's the plug! N&V is a great publication if you're looking for radio, computer, or cable TV parts - or even test equipment! It's mostly ads (display and classifieds) with a few feature articles thrown in. The October issue didn't have anything from Harry Helms, but there's a good article about FCC licenses by Gordon West. And Nuts & Volts wants you to know about their new Email address: editor@nutsvolts.com as well. A 12-month domestic subscription to N&V is \$19, from: Nuts & Volts, 430 Princeland Court, Corona, CA 91719. [direct]

First Ramsey stormed the market with the FM10, then they stood the market on its ear with the FM25. Now fasten your seatbelt: Here comes the FM100! This baby not only sports PLL frequency control to prevent drift, the frequency is adjustable from the front panel - which contains a LED readout as well. The rig also includes a peak limiter, LED bargraphs for audio adjustment and a built-in mic/line mixer, and comes complete with a power pak and metal case! The kit is available for \$299.95 (wired & tested: \$429.95) from: Ramsey Electronics, 793 Canning Pkwy, Victor, NY 14564. (note: they also have a one-watt version for export only) [direct]

(MARCUS HOOK, PA).....Complaints were being fielded by local officials on what to do about interference coming from someplace in this small southeastern PA community. When the problem couldn't be pinned down, town officials called the FCC and explained their problem. Following an inspection and tracking of signals, the interference was found to be coming from a CB operator operating with well over 10000 watts! The town now requires all hams and CB operators to file with the city in order to keep the interference problem checked. If your house has an antenna on the roof and it isn't registered with the town, you are subject to a fine! [thx Dave Schmidt] (NOTE: for the record, such local ordinances are not enforceable; only the FCC has the legal authority to regulate radio equipment and/or antennas! Additionally, there is already a law prohibiting the use of 10kW CB rigs, making the "law" unnecessary. jta)

### The Swappe Shoppe

**buy, sell, trade announcements Free to A\*C\*E members**

Please be concise but complete: If you're looking for something, accurately describe what you want; if you're offering something for sale give make, model, honest condition, and asking price. Please help me keep these ads up to date! NO collect calls unless otherwise specified.

Wanted:

- Schematic, parts list and PCB artwork for 15 to 20 watt MW AM amp drivable by Panaxis or Ramsey rigs. Contact: Dick Hertz at Z Radio via Box 1, Belfast.
- Literature on transistor radios from the 1954-70 era, including sales brochures, manuals, catalogs, flyers, and magazine ads; anything related to transistor radios with or without pictures! Also interested in kits (Eico, Heath, Knight, etc). Some magazines of that era (Nat'l Geographic, Popular Electronics, etc) had lots of transistor ads. Do not need entire mags, just the ads. Also looking for older pocket-size radios, store displays, pamphlets, and other promo items. Pls write to let me know what you have: Robert S. Ross VA3SW, Box 1003 Stn B, London, ONT N6A 5K1, Canada, or call (519) 685-1167.
- Owner/tech manual and any improvements for Realistic DX150 rcvr. Owners manual for Sansui RZ5000 computerized stereo AV rcvr. Contact: Bud Stacey, POB 907, Satsuma, AL 36572.

### For Sale:

- Go mobile! RS 140-watt inverter (cat# 22-132A) w/datasheet in good working condition : \$75 OBO, including shipping. Contact: jta
- Realistic DX150B, works but some cosmetic scratches: \$30, shipped. Contact: Evan at (770) 945-3991 before 10 p.m. ET.
- 35mmAA active antenna, super small, runs on 9V battery, great for limited space or apartment use: \$15. Contact: Bud Stacey, POB 907, Satsuma, AL 36572.
- Various FT243 xtals for older xmtrs, US\$10/ea. Contact: jta for complete list.
- Realistic DX390 portable rcvr w/manual and AM & DC cords: US\$80 (+ ship) OBO. Contact: Franz, N33015 Square Bluff Rd, Whitehall, WI 54473.
- LPB S2(FM) mono compressor/limiter in good working condx: US\$150 shipped. Contact: jta.
- Panaxis FM10M xmtr with LPB S2(FM) compressor/limiter just taken off the air in good shape: \$450 set to your frequency, shipping included. Contact: jta.
- Shack clearance - need room! FRB FM amp: 1w in = 15w out, runs on 12VDC at about 4 amps, with documentation: US\$100, shipped. CBS Audimax (mono), used but working fine: \$75 + shipping. Panaxis AM5 xmtr xtaled for 1500, 1610, 1620 & 1650 kHz with big manual, near mint: \$250, shipped. Pauldon HF amp 1.5 - 30 MHz no xmit/rcv relay, requires 12VDC at 25 Amps, pair Motorola 454 finals: 5w in = 100w out in AM mode, w/ schematic: \$160 + shipping. MFJ ground tuner w/ manual, mint condx: \$50, shipped. Contact: jta for details @ (716) 365-8870.

### off THE WALL the rumor center

ADD to Box 28413: Radio Operation Mindcrime...

Mail has been rcvd for Back to Beck Radio and WARR. This could be a good thing, except that neither Op as contacted the maildrop to request the service and I thus have no idea what to do with the mail. The mail will be held in hopes that either or both actually contact me with an address to send it to...

Radio Marabu will be testing to NAm again in November. The sked looks like: 01 - 02 Nov (Fri into Sat) \*1800 - 1800\*, and 09 - 10 Nov (Sat into Sun) also \*1800 - 1800\*. Reports go to: POB 220342, D-42373 Wuppertal, Germany...

Live Wire's QSL to Mike Prindle sez they'll be broadcasting in the 1636 to 1650 kHz range in the future. Here's your chance for a TA MWV pirate; check late nights on weekends..!

Beginning in the December VR we will feature a series on studio production - not just "hey, I did this", but HOW TO do this. And the segments will be written by such high-end experts as Bill O Rights and Woody B Serious, just to name a few. Stay tuned...

## Under The Door

*the Qsl report for November, 1996*

Joe Filipkowski shattered the windows with a full data card from KMCR signed by Magic Mike in about two weeks for an unID logging in ACE DiaLogs [great! jta], a full data "map" sheet from WLIS signed by CP in one week, a full data sheet from WGLR in 42 days, a full data blue card and infosheet from Voice of the Rock signed by Paul Art in 23 days, a date only letter from Voice of Bizarro World signed by Xhem in one month for a report on the newsgroup, two more full data sheets (#1000!! & 1007) from WLIS signed by Carl Cyan and CP in a very short period of time, a full data sheet from Hitch Hiker's Guide to the Galaxy signed by Arthur Dent in one month, a full data montage sheet from CSHT in about two months for a report in ACE, a full data "Chili Pit" card (design 9, #1) from Mystery Radio signed by The Shadow in 12 days, a full data sheet (#8) from WRVC checked by Pete the Pirate in 6.5 months, a full data oversize blue card (#1-1) from Voice of the Blue and the Gray signed by Louis Kent in two months, a date & time only "learn to work safely" poster from WORK in 26 days, a full data sheet (#58) from WSM in one month, a full data orange fold-in card and infosheets from Free Radio Service Holland signed by Peter Verbruggen in about two months [congrats!! jta], and a full data sheet (#8) from Radio CSA in about two months.

Greg Myers rang the doorbell in celebration over a no data "running man drinking coffee" sheet from Fake Alan Masyga Project in three weeks, a full data card with sticker and infosheet from Radio Sparks in one month, a full data card and infosheet from Sunshine Radio Intl in six weeks, a full "pirate QSL montage" sheet in a couple of months for report in PiPa [from CSHT?? jta], a full data sheet from Radio Nine in one month, a full data certificate with form letter and personal letter from Voice of the Blue and the Gray in two months, a full data collage sheet from Big Johnson Radio in three weeks, and a full data sheet from WSM in three weeks.

Marina Pappas chimes in with a full data "booger series" certificate (#140) from WPN signed by Captain Squirtlong in about one month, a full data certificate for the special instrumental broadcast from Radio KAOS with funnies and "one heckova sticker" in three weeks, and a full data "wash hands before returning..." card from WORK in three weeks - her 20th verified pirate. [Congrats! jta] She also got a very nice non-verie letter from ORTQ.

Mike Prindle pipes up with a full data "best buys in communications receivers" sheet (#985) from WLIS signed by CP for report in ACE DiaLogs, a full data card with infosheet and stickers from Sunshine Radio Intl signed by Matthias in five weeks, a full data blue card with infosheet and postcard with Misery is marked on it from Voice of the Rock signed by Paul Art in about a month, a full data orange "Popeye" card (#789) from Live Wire R signed by Bill Lewis in a bit more than a month, a full data certificate (#1-15) from Voice of the Blue and the Gray" signed by Louis Kent in less than two months, a full data "24 hrs of abuse" card from Radio EXP signed by Dr Blue in three weeks, and a full data sheet (#54) and trading card from WSM in one month.

Ed Rausch is still floating somewhere about international flight levels because of a full data studio photo card from Free Radio Service Holland - 6274 signed by Peter Verbruggen who said 30 watts transmitter power and did it in two months. [congrats!! jta]

Jesse Rose couldn't possibly float with this load: a full data "face of the Maharishi" card (#83) from Vot Runaway Maharishi signed by the same guy in one mantra, a full data "around the world and back" card from Hip Hop Radio in one month, a full data yellow card (#159) from Rock-it Radio (via NAPRS) signed by Bennie Dingo in six days, a full data "Fox gets me back" card from The Fox signed by Reynard in seven months, a date only "serpent" card and stickers from Mystery Radio signed by The Shadow in 2.5 weeks, a full data "gross but tasteful" card with official frog seal (#256) from Radio Azteca signed by Bram Stoker in one month, a full data sheet (#5) from VOXXX signed by Bosun Bung Ho in two months, a full data "around the world and back" card from Hip Hop Radio signed by The Unseen DJ in three weeks, a full data "smoking skull" card (#100) from outlaw Radio signed by The Outlaw in five months, a full data sheet with personal letter and a lot of other stuff from Radio KAOS signed by Joe Momma in four weeks, a full data "Grits man" sheet (#986) from WLIS signed by CP in four weeks, a full data "George and Ian" sheet (#986A) from the same station signed by the same guy in four weeks, a full data "Rush with snout" sheet from Up Your Radio signed by Woody B Serious in one month, and a full data montage sheet from CHST in about two months.

Robert Ross must not have had much free time this month - only a full data sheet (#14) from WRVC checked by PJ in seven months.

Chris Smolinski re-joins the fray with a full data yellow card (#166) from Rock-it Radio signed by Bennie Dingo in 9 days, a full data orange "birthday broadcast celebration" sheet with bumpersticker, ruler and stuff from Radio Free Speech signed by Bill O Rights in 40 days, a full data blue card and postcard from Voice of the Rock signed by Paul Art in 19 days, a full data white "rock of the S Pacific" card from KIWI signed by Graham Barclay with stickers and infosheet in 20 days, a full data "Homey the clown" sheet (#96) from Radio Fusion Radio in 27 days, a full data certificate from Radio KAOS in 28 days, a full data sheet (#45) with newsletter and mafia application form from WRRN in 35 days, a full data sheet (#36) from WSM in 32 days, a full data sheet from Radio Nine in 41 days, a full data sheet from Alan Masyga Project with his signature on it in 30 days, a full data letter (out of QSLs) w/xmtr info from North Jersey Coast Radio in 41 days, and a full data blue card and letter from NAPRS signed by Dick Pistek in 34 days. [welcome back to the "active" list, Chris! jta]

JD Stephens let us know about a full data logo card from Voice of the Last Days signed by Dick Tator w/religious material in 6 months after 2 followups, a full data clown/logo sheet from Radio Fusion Radio signed by Homey The Clown in 95 days, a full data photo card from Radio Vintage in 65 days after 4th fup for a '91 reception, Radio Pirana International, a full data "Pirana" card w/infosheets & personal letter from Radio Pirana Intl signed by Jorge Garcia in 266 days for a taped report, a full data large orange logo card from the Logical Alternative signed by Jeff Carmichael in 6 months for an ACE log, a full data "Map of The World" card w/ thank you letter (both signed by Bobaloo) with photo of production studio and "All Time Top 30 List" in 31 days, a full data skull & crossedbones card from Mystery Radio signed by The Shadow in 55 days, a full data Pink Floyd card also signed by the Shadow in three months for a log in ACE DiaLogs, a full data unsigned multi-color logo card from K2000 in 79 days after 2 followups, a full data color logo/bundle of dynamite sheet from WTNT in 29 days, a full data blue "Foot with face" card and personal thank you letter from One Voice Radio signed by Joe in 11 days, a thank you letter plus 6955 full data QSL certificate from Radio KAOS signed by Joe Momma, Roger Wilco, & Sparky Burns in 20 days, a full data logo card w/infosheet from Radio Two signed by Yabba Dabba Doo in 44 days, a full data "Dole & Kemp in '96" sheet from WRRN signed by Senator Watts w/newsletter & personal note in 47 days, and a full data cartoon sheet from

Big Johnson Radio signed by E. Normous Johnson, w/bikini-clad babe playing card & collage sheet in 20 days.

Niel Wolfish checks in with three full data cards for the "Niel Wolfish" program from Radio Two signed by Yabba Dabba Doo in six weeks, a full data card (#1186) and colorful sheet (#1185) from Radio USA signed by MBS in three weeks, two full data cards from Radio Xanax in one month, a full data "Sear's pirates" card (#14) from Radio Zebulon signed by Button Gwinette in six weeks, a full data yellow card (#164) from Rock-it Radio (via NAPRS) signed by Bennie Dingo in unspecified time, a full data green card (#3 for prgm 6) from The Spectator signed by The Merkin in five weeks [Niel's 200th pirate QSLed. Congrats!! jta], a full data sheet (#35) from Up Your Radio signed by Woody B Serious in five weeks, a full data brown card (#84) from Voice of the Runaway Maharishi signed by hisself in one month, a full data sheet (#4) from VOXXX signed by Bosun Bung Ho in 17 days for a report somewhere, a full data "Booger the Cat" sheet (#129) with newsletter and mug from WPN signed by Captain Squirtlong in five months, a full data sheet (#26) with newsletter and sticker from WRRN signed by Senator Watts in four weeks, a full data "bundle of dynamite" sheet from WTNT in one month, a full data sheet (#2) and card (#45) from Voice of Indigestion signed by Horse in about six months, a full data montage from CSHT for a logging in ACE DiaLogs in two months, a full data sheet from Hitch Hikers Guide to the Galaxy Radio signed by Arthur Dent in one month, a full data letter for two frequencies from Johnny Canuck signed by Johnny in 10 months, a full data "pathetic QSL" from KAMP signed by I Am Nutts in five weeks, a full data "RMS Titanic" postcard from Monday Radio signed by Jack Phillips (senior radio op) in seven weeks for an unID log of their test, a full data "martian" sheet from Montana Audio Relay Service signed by Dreeble in four weeks, a full data "Pink Floyd" card (#1000) from Mystery Radio signed by The Shadow, a full data letter from North Jersey Coast Radio signed by Bruce DeVito in six weeks, a partial data "partial Data" (from Star Trek) sheet from Partial India Radio signed by Harold Krishna in one month, a full data "pyramid" card (#253) from Radio Azteca signed by Bram Stoker in one week for a report somewhere, a full data sheet (#1708) from Radio Beaver signed by Bucky in seven months, a full data sheet from Radio CSA in five weeks, a full data card and infosheet from Radio Free Salvation signed by Pastor Billy DeYoung in six weeks, a full data "birthday" sheet with newsletters and sticker from Radio Free Speech signed by Bill O in four weeks, a full data certificate and infosheet from Radio KAOS in three weeks, and a full data card (#9999) from Radio Nine in three weeks.

George Zeller banged a gong for a pirate QSL montage sheet from CSHT in 58 days, a full data card from Radio Nine in 30 days, a full data certificate (#1-4) from Voice of the Blue and the Grats signed by Louis Kent in 61 days, a full data "Chili Pit chili" card (design 9, card #2) from Mystery Radio signed by The Shadow in 33 days, and a full data sheet (#38) from WSM in 33 days.

Ye Olde Columniste garnered a full data certificate (#1-8) and personal letter from Voice of the Blue and the Gray signed by Louis Kent in 56 days, a maybe full data "not valid without official checkmark" half-sheet (#15) from WRVC checked by PJ in ohhhh six months or so, a full data "Grand Ole Opry" sheet (#59) from WSM in less than one month, and a full data "you're only human" sheet from Bull Frog Radio signed by Bull Frog in about four months.

Many thanks to all who take the time to contribute to VR and support The ACE. Until next month, best of DX and 73...

more than 10 hours of programming were heard! Dozens of reports were received, and a gorgeous QSL card arrived entitled "LEVEL 48 - strikes back!!!" Their next transmission may be this coming Christmas season, who knows?! Their E-mail address remains level48@srs.pp.se and their Internet homepage is <http://www-pp.hogia.net/jonny/fr/148.html>

I'm closing, I'd like to report receipt of a QSL from RADIO EXP after more than 400 days (thanks to JTA, but be sure: I haven't been "totally upset", hi!) and now I hope many other stations may soon follow! By the way, sundown in Europe is now about 15.30 UTC and it's really dark at 17.00 UTC until about 06.00 UTC!

Happy DX hunting, many Euro catches during the fall and until winter, and into 1997! 73's and have fun!  
Rainer!

# EURO REPORT #11-96

Rainer Brandt  
Wiesenweg 6  
D-29361 Hoefer • GERMANY

Welcome, fellow ACE readers. We're back again with news concerning the NA stations during the months of June to October 1996. In Europe, several US and Pacific stations were relayed again, and others made it across the pond! Unfortunately we had wretched conditions throughout September into October here, but now we hope the conditions will settle down. I think it's better just to have a brief roundup of the stations being heard recently instead to have boring twaddle about times and frequencies. The stations were heard on the usual 6955 kHz on around 23.00-01.00 UTC and most of the logs already have been published by Joe in his Dialogs pages!

The month of June saw WRRN, ORTQ, PARTIAL INDIA and ONE VOICE, in July we heard THE FOX, AZTECA (in rarely used LSB), WMR, USA and XANAX, in August there were WARR, VOICE OF THE ROCK (with only less than 10 watts!! in clear AM mode!!), VOICE OF HARLEM (but my report came back undelivered because of insufficient address - I only wrote "VOH" instead of VOICE OF HARLEM, maybe I should try again; what do you think?!). Has anybody gotten a QSL yet? We had WPRS and a SUNSHINE RADIO relay (via NAPRS) and the operator Matt said he is going to close down for good because of being involved in legal, local commercial radio nowadays. UP YOUR RADIO was heard twice in August and October; KTLA, WLIS, KIRK, SPARKS and WREC made it in August as well, and WRMC and WLIS were heard on October 12th!

Let me thank WREC and especially NAPRS for all their efforts during the past years for letting us listen to east coast Free Radio stations here. By the way, I myself had the luck to listen to more than 20 NAPRS relays during the past 2 years and we really will miss Dick Pistek in the future!!

Now let's have a look at the stations being relayed in Europe. FRIDAY RADIO was a regular via British RADIO PANDORA, but the so called "program" only consists of unintelligible echo announcements - "FRIIIIIDAY", somewhat heavy music and joke bits. WLIS was relayed via Jack Russell's WEEKEND MUSIC RADIO (WMR) on 75 metres on August 17th. RADIO USA was heard via the PIRATE RADIO RELAY SERVICE by DJ Yves of INTERNATIONAL MUSIC RADIO on September 1st on 7380USB, local Sunday morning. An old but nice show was played. RADIO AIRPLANE was back in Europe via PANDORA on October 20th on 48 metres with an old show (Wellsville was given).

And finally, both KIWI RADIO and RADIO JEMIMA from New Zealand were heard via Irish JOLLY ROGER RADIO recently, both giving the KIWI address in Napier. Last but not least, THE FOX made it via RADIO TITANIC and WMR on 48 and 75 metres recently with strong signals in Europe. Mark and Jack said we may expect more of the station in the future. Both guys tested to the USA around 6955 recently and at least WMR made it to America with his high power station (400 watts!). RFL, MARABU and FRSH on 48 metres, KORAK and LIVE WIRE RADIO on 75 metres also made it across. Meanwhile Scandinavian RADIO CITY, INTERNATIONAL MUSIC RADIO and TRANS ATLANTIC RADIO tried the 45m as well, but had no luck yet hopping across the pond. You see, some try it but in vain now and then! The FRSH made it on October 20th on 6954 kHz celebrating 16 years of broadcasting! They used 3945, 6275 and 6243.5 kHz as well!

In Germany a great Free Radio meeting took place in August and about 30 Free Radio operators were seen there, e.g. guys from BENELUX, CRAZY WAVE, IMR, LAGUNA, LEVEL 48, NORTHSEA, PASSION, PERFEKT, PFBS, RABBIT, SCHLITZOHRE, SPEEDWING, STAR CLUB, SUDWEST RADIO, TELSTAR, TITANIC, VANESSA, WELLENBRECHER, WONDERFUL, from Germany, probably there were more but unverified, as well as the powerhouses of BARONES, TONAIR and TORENVALK from Holland, even some Scandinavian guys participated together with French RADIO WAVES and Swiss RADIO SPARKS! Nice contacts were made and some cooperations resulted thereupon.

One joint bi-annual venture is "Europe's biggest Free Radio - LEVEL 48", which was on again July 27/28th on 75 and 48 metres. WMR, RFL, Z-100 from the UK, TORENVALK, TONAIR, TRANS ATLANTIC RADIO from Holland, PFBS, SWR, SPEEDWING, BENELUX, CRAZY WAVE RADIO from Germany and FUSION from Scandinavia were involved this time and all in all

# Micro 'casting

Bud Stacey; PO Box 907, Satsuma, AL 36572

Contributions towards the goal of increasing & spreading knowledge of Part 15 microbroadcasting are greatly appreciated; this is YOUR column! Please send all your loggings, QSL's, station information, tapes, broadcast schedules and what-have-you to the address above...

SILENT PLAY REVISITED: I'm having so much fun with this little FM transmitter, this column may generate a series about it's upgrades & modifications, kind of like what happened with the Heathkit HW Series ham transceivers! I'm kind of rushing a couple of things, due to the fact I'm getting one ready for a friend who is about to leave town for about a year to travel with a nationwide Christian ministry - he's going to "cut his teeth" on broadcasting here at home, then take his gear with him on the road while he travels! What fun!

As mentioned in an earlier column, the Archer "Silent Play" was available from Radio Shack for a short while back but was discontinued. For those who have friends [you do, don't you?] at local Radio Shack stores, these could be picked up for literally a steal! Here's some specifications on what I've found so far with the transmitter [from the "Silent Play" booklet]:

Supply voltage	3 vdc	Frequency range	89-93 Mhz [+/-]
Spurious response	20 dB down	Distortion	1.0 %
Pre-emphasis	75 usec	Field strength	< 45 dBu/m @ 3m
Current consumption	9 ma	Channel separation	25 dB
Oscillator drop-out-voltage	1.8 volts		

As you can see from the "field strength" rating, this little pup is a true micro-watter! This seems FAR below the maximum-allowable limit of 250 microvolts/meter @ 3 meters and so warrants some improvement for the most efficient range!

My experimental unit has 30-gauge antenna wire approximately 25" long - several inches too short for proper efficiency. For 1/4 wave antennas, some wire must be added - here's some measurements per frequency: 89 Mhz - 31.5", 90 Mhz - 31-1/5", 91 Mhz - 30-5/8", 92 Mhz - 30.5", and 93 Mhz - 30-1/5". For a better, more efficient antenna that requires no ground, experimentation with a 1/2 wave antenna may get better results - just double the lengths above. [By the way, "Mr. Tony" in an earlier column used Radio Shack 6' telescoping antenna (#270-1408 @ \$4.99) for a much-increased range!] I also rerouted the antenna wire straight out of the back of the case, instead of having it wound around the inside of the case, then out, as in the factory design.

With this low power output, a small buffer amplifier could theoretically be matched to the "Silent Play". This is a critical area, due to the fact one doesn't want to go outside the limits that the FCC has set forth, to stay legal and not get busted! More on this controversial subject in a later column...

As for power/voltage concerns, this pup takes 3 vdc - any more may harm it. Batteries have a bad habit of wearing down due to constant usage, therefore, the frequency will drift, so I set about putting together a simple 12 vdc converter using a circuit based on Radio Shack's LM317T [#276-1778]. The circuit is on the rear of the package but R.S. available parts will differ. No problem; R1 can be a 270 ohm [#271-1112], R2 can be a 4.7k ohm [#271-281]. I used the 272-1432 tantalum cap [better than disc caps], but they didn't have a polarized 1uf electrolytic, so I used one from my junkbox; one could use the 272-1024 4.7 uf - it's for better filtering, anyway.... Do not use less than a 16 volt rating!

I drilled two holes through the rear case, just above the battery door for the wires fro, the 12 vdc-to-3 vdc adapter wiring; the negative wire was soldered to the "-" battery pad, the positive to the "+" pad. Needless to say, I used polarized plugs for the adapter. The entire module is the size of a large postage stamp and fits inside a plastic 35mm film canister. The leads are marked "in" & "out" also. It can be connected to a 12 vdc REGULATED power supply, or where A.C. mains are not available, to a 6, 9 or 12 volt battery - anything above 3 volts will suffice, it seems! Gel-dell batteries are good for portable operation - a 12 volt / 6.5 amp-hour would seemingly last forever!

[NOTE: Either the on-board AAA batteries or the external power supply/adapter can be used, but NOT at the same time, or damage will result. I will experiment with a blocking diode & report it in a later column, but for now, BE SAFE OR BE SORRY!]

And speaking of stability - after cracking the case again on a test unit, I found the little capacitors in the oscillator are NPO types. With the limited space inside the case, it would seem counter-productive to try & install any silver mica caps - unless one just wanted to take the chassis out for heavy-duty upgrades & put it into a different case... I have more plans for this little micro-watter! But I'd better stop for now, or Yo will swat me again! Hasta luegoito, muchachos!

Bud

## ASSOCIATION OF CLANDESTINE RADIO ENTHUSIASTS

P. O. Box 11201, Shawnee Mission, KS 66207-0201

The A\*C\*E is an association of individuals who find pirate, clandestine and covert communications an interesting part of their radio listening hobby. The primary existence of the club revolves around the publication of a monthly bulletin, The A\*C\*E. The bulletin reports on pirate, clandestine, covert and other unexplained broadcasts. Also, the readers are provided with other available material concerning motives, explanations and theories behind these various broadcasts and broadcasters. The ACE as an organization, does not encourage, support or condone any illegal activity; we simply seek to understand the nature and reasoning behind such broadcasts. If your interests include listening to pirate radio stations, clandestine broadcasts and covert communications, The A\*C\*E is for you!!

All subscriptions, renewals, and queries regarding subscriptions should be sent to the above club address. Contributions for each editor should be sent to their own given addresses.
